

SUMMER MANUFACTURING

Ages 14-16 learn from start to finish at ELGIN COMMUNITY COLLEGE

Summer Manufacturing Camp

Course Code: CEK 965

July 15-18 Limited Seats Available

\$149 *Graciously Grant funded

Students are introduced to the inner workings of manufacturing, including computer-aided-design, welding, & sheet metal cutting, with hands on projects in ECCs shop facilities. Industry professionals will present firsthand information about careers & training, and students will tour a local manufacturing facility. This year students will design and make their own metal frame with customized logo.

4 full days of learning with
ECC faculty
