- 847-464-6030

# incubator<sup>®</sup>edu@chs

Interested in supporting students as a mentor and/or coach? We are seeking community members and professionals to help our students.

Attend the **Open House at Central High School on September 24th at 6:30pm-7:30pm** to learn how the program works and understand the roles of a coach & mentor. **Click to [R.S.V.P.](#)** so we know you're coming or [share your contact information](#) and we'll contact you!

This is an entrepreneurship program that develops innovative thinking skills, problem solving, presentation skills, grit and team collaboration. Student teams develop an idea for a startup business and prepare to seek funding in a format similar to Shark Tank. Partnerships with business professionals and community members offer opportunities for students to connect the skills developed within the course to real life experiences.
