Dear Central 301 Families and Staff,

The Governor has issued an executive order closing all public and private schools through March 30th. Administrators will be staffing the buildings across the district during the Act of God “AOG” closure period. If you need to pick up medications, musical instruments, or other supplies from school you will need to make an appointment with your building level administrators on either Tuesday, March 17th or Wednesday, March 18th. Beginning on Thursday, March 19th, there will be no public access to our school buildings except for those families that qualify for free and reduced lunch and have signed up to receive a sack lunch.

Thank you again for your flexibility, patience and understanding during this continuously-changing situation. We are working to keep everyone safe and follow the guidelines of the State. I will share additional guidance from the Illinois State Board of Education and the Governor's office as it becomes available.

Please find the resources provided by ISBE in the event families are looking for resources to continue further learning: www.isbe.net/keeplearning.
