This addendum serves to update a couple of elements that were presented in the “Cash Farm Lease Agreement” initially posted. This addendum is effective May 1, 2024. The “other specifics regarding this lease” have been updated to reflect for #1 and #3 changes as follows:

1. The established crop for the 2024 planting can be either soybeans or corn and/or a combination thereof;
3. Any damage by Central CUSD301 due to necessary soil boring or other testing necessary to utilize said property would be paid at \$310 per acre, in lieu of the \$200 per acre listed in the original posted “Cash Farm Lease Agreement.”

All other elements in the original posting will remain the same.
